## HICKMAN'S FAMILY FARMS

Desert Pride Farm - Tonopah, Arizona

## COMMUNITY INFORMATION MEETING

Saddle Mountain RV Park 3607 N. 411th Avenue Tonopah, Arizona

January 9, 2014 6:00 p.m.

PREPARED FOR:

Mr. Michael Wirth

MR. WIRTH: My name is Mike Wirth. I'm the owner of the Saddle Mountain RV Park. And I just want to introduce the Hickmans. They're going to present their information tonight.

Before we start I just want to thank them for coming. And I also want to show Billy and Glenn the utmost respect from everybody here. If there is anybody using foul language or anything that goes on, we will escort you out. There is security here. I will not put up with it. And nobody in our company will here. So we will ask you to leave.

So please no foul language, no disrespect to these people. They're here to present. And if you yell and scream, they will not be here to be able to get out the information they want to get out. So please be courteous the whole time.

The bathrooms are through that door right there in the next building. There is exits all through here that you can get out of here if you need to get out. If there's anybody here that can give up a seat to an elderly person or somebody that needs a seat, and you're a young person with good strong legs, please do so.

AUDIENCE SPEAKER: There is two empty seats over here.

here in Tonopah.

In the corner over there is -- there's been a lot of -- there's been a lot of talk about the prison system and the ACI work program. We actually have officials from the ACI program back here along with some DOC officers. So that there is a chance for people to talk and voice their concerns about what happens with inmates in a community. But I would like them to actually explain that.

Hopefully, you all got your cards; whoever wanted to take the -- take the microphone and ask a question. A lot of them are the same question. And I hope that no one feels slighted if we answer just the questions one time. Because just answering a different variation doesn't really move the meeting forward. And we would like everybody to feel like their questions got answered.

I would like to introduce my brother Glenn. He's been my -- he's been a partner since we were little kids. We've been doing this all our life. I started gathering eggs when I was four years old. And he's always had the better job, you know. And so you get a microphone in front of him.

24 Anyway, so we're sort of deviating from our original plan. Because we were hoping that people

Page 3

14

20

MR. WIRTH: There is two seats over here.

So I would like to introduce to you -and they're going to go through their agenda, how they want to present this -- to the Hickman people here. So here is Billy Hickman and he's going to present. And his brother Glenn is here tonight too.

MR. BILLY HICKMAN: Good evening everybody. Thank you very much. I'm not used to talking in front of a large crowd. So if I stutter, do something embarrassing, I'm just not used to it.

I want to thank -- I'm sorry.

AUDIENCE SPEAKER: We can't hear you. MR. BILLY HICKMAN: Okay. Now I'm starting off.

So, anyway, tonight we came in to inform the community of our plans to build a modern egg facility here in Tonopah. A lot of you have concerns. And, you know, we came out here with our staff. And they're all dressed pretty much like me, you know, with -- with the red shirts on.

In different areas we brought in some videos to sit there and show you what we're doing in a processing plant. And also the -- back here, right square behind me, behind us is the type of enclosure system and housing system that we were going to build would mill around and take a look at the different -the different exhibits, whatever you might call them. And ask the questions of the people that run the -- run those areas. And they are the -- they are the ones that make the Hickman Family Farms work every day. As much as we would like to think we do, it's the people out here in red.

Would you like to say anything before we get started?

MR. GLENN HICKMAN: Only if you're not going to get the mic back.

MR. BILLY HICKMAN: We do this a lot to each other.

MR. GLENN HICKMAN: My name is Glenn Hickman, and I am the president of the Hickman Family Farms company, because I am my mom's favorite. So ours is a family organization. It's our family and a lot of other families that work with us every day. And we're committed to providing safe nutritious food for families.

That's what we do. We've been doing this -- this is our 70th year in business. So, you know, they kind of say shirtsleeves to shirtsleeves in three generations. We haven't gotten out of shirtsleeves yet, so we're okay.

Page 6

So we hope to give you guys some knowledge. We hope to answer every question that we can possibly answer as truthfully and transparently as we can. We ask for you guys to listen with an open mind. And if you -- if you have some concerns, we'll try to address them. This is the time to do it.

So -- did you have a statement that we needed to -- let me get one of the white elephants out of the room. And just so we don't screw this up, I'm going to read this verbatim. So -- and then we can talk about it afterwards if you'd like.

But my brother Clint handled the sales at our business. And he has also been a lifelong employee of the company. He's been at the county for the last month. He has not been part of the day-to-day management, nor the plan and purchasing of this land for our company's growth. Because of the intentions of some to try and make this a perceived conflict, we asked my brother Clint to not be here tonight.

Let me state clearly, Maricopa County government has no authority to regulate this agricultural business. I assure you this is not a political dodge by my brother of the issues. The prohibition of the regulation of agriculture activities is not a county regulation, but state law. Arizona

gate, you know we might as well, if there's any general questions that --

MR. WIRTH: Billy, would you just explain, you know, the locations, the buildings, just so we kind of get some generalities. Just give them a basic rundown of how many buildings so they get a basic feel for it. And they can go --

MR. BILLY HICKMAN: Okay. So we bought the 360 acres from O&E Farms. And I first met with the two principal owners of O&E Farms in October at Tonopah Joe's. And just to give you the entire timeline, that was in October of 2013, just a few months ago.

The land deal closed in November of 2013.

And that's when we put the sign up. And that location is on the 419th Avenue and Indian School, the half-mile mark. And, of course, it runs -- it runs south for one mile. And then there's a 40-acre piece -- 40-acre piece on the north side of the road.

We originally were looking at putting some pullet houses where we raise the baby chicks to the pullet stage, which gets moved into a lay house. But we have decided not to build over there. There's a couple reasons. So that land will stay farm ground on the north side of Indian School.

We are -- the 320-acre parcel that is on

Page 7

Revised Statute 11-812(A)(2) does not allow political jurisdictions to prevent, restrict or otherwise regulate the use for occupation of land or improvements for railroad, mining, metallurgical or general agricultural purposes.

The other thing -- the second thing, and maybe Billy could like to address this so we can get this out of the way as well. You don't have your glasses, do you?

MR. BILLY HICKMAN: Do you want to continue?

MR. GLENN HICKMAN: Do you want to do that later?

MR. BILLY HICKMAN: I think so.

MR. GLENN HICKMAN: Okay. Anyway, so that we want to -- we want to address -- again, that's the elephant in the room. There is no conspiracy, there is no issue. My brother's been my brother his entire life. He's been a county supervisor for roughly nine months. But if there's a perceived conflict of interest, then we thought it would be best if he wasn't here. So I just want to kind of clear that to begin with.

MR. BILLY HICKMAN: Well, since we're -- since we're off the agenda anyway right out of the

the south side is a -- is going to be left as farm ground on the eastern half of it. The 160 acres that run from, you know, halfway, the half-mile mark to the west, a quarter mile, and that will be left as farm ground.

So the piece that we're talking about and I don't know if it's -- yeah, I don't know if -- if this is big enough for everybody to take a look at. But as you can see, this is the phase I that we've been talking about to everybody. And, of course, as I told the newspeople, that we always have high expectations of ourself in a growing market if we could continue growth.

But this is the piece that we're talking about currently. It would be on the northwest corner, or that corner right there.

These buildings contain a new type of enclosure, like I was trying to point in back. They have a nest box inside. They have a scratch pad. They have purchase. So that there's -- there's a -- there's more activity. There's -- there's less birds per enclosure. So that there's less density.

And I keep saying that, because the standards today is at 67 inches. And these are going at 116 inches. And that's per bird. The buildings are

1/9/2014 Neighborhood Meeting Page 10 Page 12 about 560-foot long. They are about approximately MR. BILLY HICKMAN: Well, we're going to 30-foot side wall, 82 feet across. start -- we're going to start to get into the details. So -- and Paul Yeatts, who is our project I'm sorry, I'm just trying to explain. You know, Mike coordinator, and he can correct me or come up here if wanted to start of show this is where the property is I'm wrong. He's waving me off. and the type of buildings. Anyway, so the processing plant is AUDIENCE SPEAKER: Where is Indian School approximately 200 feet, 200 feet by 220. I might be running according to that? We're here because we're wrong on that, because I'm just trying to go off interested on the impact of what you are putting in memory. And that will have -- that will have two here an eighth of a mile from the intersection of 411th state-of-the-art egg graders that do everything. And Avenue. That's why we're all here. at a later date, actually package the eggs and put them MR. WIRTH: Dave, hang on a second. into the case, which I think is in one of the videos 12 We're going to keep it under control. over, I think, behind -- behind Shari. It shows the 13 AUDIENCE SPEAKER: Very good. robotics. MR. WIRTH: Well, they're going to 15 15 So that is -- that is the first phase. present it. And then we're going to ask the questions, The processing plant and seven houses, per 2.2 million okay? So I just want to make sure --17 birds. 17 AUDIENCE SPEAKER: We want to ask the AUDIENCE SPEAKER: You are going to put right questions. that raw sewage on the farmland, right? The egg wash 19 MR. WIRTH: No, we're not going to get and the sewage, some of that is going to go directly through it if everybody doesn't just hold it. And I'll 21 without being treated on the farmland, right? come back to you, and you'll have the chance to ask a 22 question. Okay. MR. BILLY HICKMAN: No. I think we already talked about this when I stopped in and talked 23 AUDIENCE SPEAKER: Can you just tell me to you. So -where Indian School Road is on that map? 25 AUDIENCE SPEAKER: Oh --MR. BILLY HICKMAN: Okay. Indian School Page 11 Page 13 MR. BILLY HICKMAN: Yes. So I told you, Road is right there. you know, these houses are set up where the manure is AUDIENCE SPEAKER: Okay. in the buildings behind. You can't see that. We'll MR. BILLY HICKMAN: Which would be right set it back down. That's a cement line. There will be here, Indian School Road. There is a -- there is a portion of this that will be landscaped and the visual no -- there will be no manure touching the ground or stored outside. It is -- it is not going to be blockage with the landscape. processed there. It's not going -- and I'm sure you AUDIENCE SPEAKER: Those aren't the maps. guys are familiar with Arlington. And that's what MR. BILLY HICKMAN: Well, Rick, this is you're basing everything on. But it's not stored. about the best we can do on short notice. So I'm There won't be any outside stored manure. It will be trying to --11 hauled off the facility. 12 you had? 12 There will be -- we have less impact on this acreage than normal farming does. We don't -- we MR. BILLY HICKMAN: Well, like I said, we

don't -- we will use less groundwater, not even close to the amount of groundwater that is being used to farm those acres right now. Chickens don't need that much water.

17

18

19

23

Wastewater runs approximately -- and if I get too detailed, it is because this is all I ever do. The process water runs about 150,000 gallons per month. That will be stored in lined ponds and evaporated off. And there's no -- there is no direct sewage or anything like that. AUDIENCE SPEAKER: Where is the water

going to come from, the aquifer?

AUDIENCE SPEAKER: How much notice have

bought the property -- and I'm sorry, we're going to jump around here pretty quick. But we bought the property and closed in November. And put the sign up two days later. So that we would not think that anybody -- so we notify everybody.

I put my personal e-mail on there, and I put Paul Yeatts along with a phone number to contact. So I haven't been without taking everybody's e-mails or phone numbers.

AUDIENCE SPEAKER: You brought a better map to the meeting with us earlier.

MR. BILLY HICKMAN: Okay. You know, I

22

1/9/2014 Neighborhood Meeting Page 14 Page 16 think we should probably go ahead and start the MR. YEATTS: My name is Paul Yeatts. I'm questions and answers. the project director for Hickman. We have done the AUDIENCE SPEAKER: I think we need to let surveys for this site. The floodplain basically cuts them know the Indian School Road that they're asking across here, which we miss on this side, and it cuts about is the first road south of the freeway, I-10, on down here. So it shouldn't affect us on this building. 411. If they turn between the Shell station and AUDIENCE SPEAKER: Is that according to Tonopah Joe's, it goes west. And it's one-half mile the building and zoning commission of Maricopa County? west. And it's across the street from the little blue MR. YEATTS: Yes, sir. feed store that tried to open up. It's from 415 to AUDIENCE SPEAKER: Well, how about all 419th Avenue. So it's one-half mile west of 411 here these houses that have to build four-foot high? 11 MR. YEATTS: They're in the flood zone. 11 on our main Tonopah Road. MR. BILLY HICKMAN: Doris, you just 12 AUDIENCE SPEAKER: Clear up to 439th nailed it for me. That's exactly where it's at. Avenue, which is about two miles from this, and they're There, right there. Thank you, Doris. still in -- and they're not in a floodplain? 15 MR. WIRTH: Thank you, Doris. MR. YEATTS: Well, the floodplain is --16 Okay. Here's going to be the way it's 16 there's several places that it runs across. 17 going to work. We're going to let you ask one AUDIENCE SPEAKER: The valley -question. If the question is duplicated, I'm just MR. YEATTS: It's called -- everything is going to take the microphone back and we're going to being sent through by land development; we're getting move on to the next one, okay. So these guys don't all the drainage, grading. The floodplains are being want to be here all night. We want to get right to the addressed. And they will not affect this build. If questions that matter. So I'm going to walk around the they do, then we will compensate for that. room. And ask your question and then they'll be able 23 AUDIENCE SPEAKER: You have right across 24 the -to respond to you, okay. 25 AUDIENCE SPEAKER: Okay. I guess my one MR. WIRTH: Okay. All right. Page 15 Page 17 question --AUDIENCE SPEAKER: You have to build MR. WIRTH: If you have a card and you four-foot high off the ground, and they're right next want to pass it back in, they'll take them with them, to the same one. and also e-mail your responses if it doesn't get MR. WIRTH: Okay. We're going to move on addressed tonight. Okay. to the next question. AUDIENCE SPEAKER: Okay. My question --AUDIENCE SPEAKER: I was wondering, would it ain't working. My one question, any new you consider other options for that property, other construction necessary from what I understand has got things there? We have a great need for, like, a to be four feet off the ground. Is this going to hold community center in the area. And I was wondering, through to these chicken houses also? It does to any would you consider something like that? resident that has to build out here. They're right MR. BILLY HICKMAN: Okay. No, no, I'm next to the floodplain, right next to the wash. not -- our history is such that we're very supportive MR. BILLY HICKMAN: We're very aware of community projects. I can't sit here and say where the floodplain is. There is no chicken houses anything, that we're going to write a check, because 15 being built in the floodplain. we're not. We will be building chicken houses. But we AUDIENCE SPEAKER: If you build within a support communities. We support schools, churches, mile of it, you've got to have -- if you build within a food banks. We support the state. We have roll-offs mile of it, you have to be over four-foot high. 18 18 down with the state. We support recycling programs.

19

23

building projects. The reason this property was purchased was because of the proximity to I-10, and the corridor either into Phoenix or into California.

But I'm not going to say yes to a

community building. But we will supportive both as a

family and as a company. We have donated to different

MR. BILLY HICKMAN: Okay. I'm just

MR. WIRTH: Okay. Let him answer.

up here and thank God, because I'm trying to say we're

MR. BILLY HICKMAN: Paul, you're heading

telling you -- I'm just telling you that we are not in

the floodplain.

not in a floodplain.

22

agriculture.

Page 20 Page 18 AUDIENCE SPEAKER: So what about Salome? AUDIENCE SPEAKER: I know that. There's an off-ramp and on-ramp on Salome. There's all MR. BILLY HICKMAN: And we are --AUDIENCE SPEAKER: Because you don't care kinds of property where nobody is even there. MR. BILLY HICKMAN: Okay. I'm going how people care. to have to --MR. BILLY HICKMAN: Okay. So we are AUDIENCE SPEAKER: All manure stinks. putting -- we are putting an agricultural business on And of all manure, chicken manure stinks the worst. an agricultural-zoned property. That's the answer to And the reason is very simple. It has a high ammonia your question. content which gives off nitrogen. And it can cause AUDIENCE SPEAKER: That's not harm to human and animals. And 26.4 per cent of all agriculture. AUDIENCE SPEAKER: It stinks. Manure nitrogen released in the atmosphere comes from chickens, from all forms and sources. 12 stinks. 13 13 MR. WIRTH: You've got to have a MR. WIRTH: All right. Next question. question. 14 AUDIENCE SPEAKER: Hi. I have nothing 15 15 AUDIENCE SPEAKER: Why -- the question against raising chickens. I'm sure everybody has on their farms. But I have a question -- okay. I live on is, why are you bringing a stench factory in the middle 331st Avenue. We bought the property in '07. We of a residential neighborhood? MR. BILLY HICKMAN: Okay. Let me answer smelled that chicken farm very rarely, and last year 19 that. Number one, I have been told by different once in a while. 20 people, leaders of the community, that's a commercial This year I'm getting that smell every 21 corridor. So when you're saying it's a residential, day. No, I'm three miles approximately -- what am I -and I have been hearing from others that's a commercial north of you. And I -- I'm not trying to shut you corridor. So what I'm -down. Is there anything you can do about the odor, 24 AUDIENCE SPEAKER: Do you live here? I dust control, fly control, because I'm smelling it can have -every day. Page 19 Page 21 MR. BILLY HICKMAN: Okay. MR. BILLY HICKMAN: Okay. Sir, can I ask -- can I answer some questions about -- you made a AUDIENCE SPEAKER: And good neighbors do statement about -- you're probably using some old data. try to make good fences with good neighbors. And I understand that, but that's okay. MR. BILLY HICKMAN: And I agree -- and I AUDIENCE SPEAKER: It's data from 2012. agree with that. And I don't want to sit there --MR. BILLY HICKMAN: Okay. But when we listen, we're being compared to the Arlington facility. And I understand that. And in my back pocket I wrote feed chickens -- and you're saying nitrogen. But we feed on, instead of a pure protein level, we feed on an some notes. amino acid profile. So we don't put out -- we try very And you're correct, ma'am, we started the hard to sit there and lower the emissions, period. project -- we started the project in Arlington in 11 So I'm not trying to -- that's just our August of 1998. We sat there and developed practices -- that's just our way of feeding chickens. So I'm not to handle our waste streams, our chicken manure, and saying that we don't put off an odor. I'm not going to those kind of things that we continue to date. I agree 14 say that I'm going to satisfy everybody. But we bought that we're at fault. We've made a mistake. this property because of the proximity to I-10. 15 We've been using the same practices as a AUDIENCE SPEAKER: You didn't answer my company. And we have doubled to almost tripled the question. size of that facility with not changing our waste 18 stream practices. So that's what you're saying is MR. BILLY HICKMAN: I'm sorry. What was 19 your question? 19 exactly true. And if you went back to 2'03, it would 20 20 AUDIENCE SPEAKER: Why would you put a be even less. stench factory in the middle of a residential As of -- I'm going to have to get a drink 22 22 neighborhood? of water here in a minute. 23 MR. BILLY HICKMAN: Because --23 MR. GLENN HICKMAN: Yeah, it's right 24 because this -- I'm sorry, this property was zoned there. Right there in the corner.

MR. BILLY HICKMAN: But anyway, as of

1	Page 22		Page 24
1	today, we've got a piece of equipment coming in from	1	Those kind of things. So I wouldn't put my own
2	Missouri, that we're not going to sit there and process	2	children in harm's way.
3	our manure the same to begin with. We have what is	3	AUDIENCE SPEAKER: Do you live there now?
4	called a rotary dryer, instead of using the good	4	MR. GLENN HICKMAN: No, I don't. We
5	Arizona sunshine to dry up chicken manure, and expose	5	actually sold that farm on 91st Avenue to the City of
6	it to re-dry it out.	6	Glendale.
7	We are actually putting it through a	7	AUDIENCE SPEAKER: My question to you is,
8	mechanically-heated propane or natural gas. It will be	8	I want to know that the kids that have to wait for
9	propane, you know, at the Arlington facility, to dry it	9	buses in this air, who have asthma, and right now I can
10	that way. So	10	barely talk because of it. What is this air quality
11	AUDIENCE SPEAKER: Where does the air go	11	going to do to these children who are already with
12	out of the dryer?	12	compromised immune systems? What's going to happen as
13	MR. BILLY HICKMAN: I'm sorry?	13	they're waiting for the bus and the stench comes
14	AUDIENCE SPEAKER: Where does the air go	14	around?
15	out of the dryer? It goes out into the atmosphere,	15	MR. GLENN HICKMAN: And I can just answer
16	doesn't it?	16	is that the Maricopa County Air Quality Control
17	MR. BILLY HICKMAN: Well, no, I	17	regulates dust emissions. And they come out regularly
18	AUDIENCE SPEAKER: Can you guarantee us	18	and we're within tolerance.
19	that it's not going to stink?	19	AUDIENCE SPEAKER: Yeah, I have a
20	MR. BILLY HICKMAN: I can't guarantee	20	question. I got a question. I retired down here. And
21	anything about tomorrow, sir. I'm sorry. I can	21	I've got all my life savings built up in my house. And
22	guarantee we're going to pay taxes tomorrow. That's	22	in doing that I have heard that the average price of a
23	what I'm saying.	23	home in Arlington has dropped to around \$31,000.
24	AUDIENCE SPEAKER: You said you made	24	And you putting this plant here is and
25	mistakes at Arlington.	25	can you guarantee that you're not going to lower my
	Page 23		Page 25
1	MR. BILLY HICKMAN: No, I'm sorry, I was	1	house appraisal price in this area? You're going to
2	making a statement. But I don't know if that answers	2	condemn us for you making all this money. And being on
		_	
3	your question, if you	3	a farm, I lived on a farm, but I didn't have

I lived on a	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	a farm, I lived on a farm, but I didn't have  3.8 million chickens on it.  MR. GLENN HICKMAN: And let me just answer that by telling you when we bought the piece of property in Arlington, that the current base of operations, there was exactly one resident across the street. And now that little neighborhood continues to grow every year. So I don't know why people move in there. I don't  AUDIENCE SPEAKER: We're already here. AUDIENCE SPEAKER: We're already here.  AUDIENCE SPEAKER: We're not we're not real estate speculators. So I can't tell you what's going to happen to real estate values.  AUDIENCE SPEAKER: Who is going to pay the difference?  AUDIENCE SPEAKER: Yeah, I have a question. Your ACI program for your inmate program,

Page 28 Page 26 out there or transported daily? recidivate. If they don't recidivate and they don't go MR. BILLY HICKMAN: Just transported back to prison, you don't, as taxpayers, pay \$54 a day daily. for that person's incarceration. AUDIENCE SPEAKER: Okay. What are they; AUDIENCE SPEAKER: They get paid. AUDIENCE SPEAKER: They get paid while minimum, medium, maximum? MR. BILLY HICKMAN: You know, I would they're there. Why do they take a job from the citizen love for the guys at ACI to get a chance to tell you a that needs a job when they're who's supporting them little bit about their program. already anyway? AUDIENCE SPEAKER: Where is he at? MR. DAVIS: We don't turn around and take MR. BILLY HICKMAN: Glen or Mario, do you jobs away from the community. The community has an 11 11 want to handle that? access to go out there and get jobs. 12 AUDIENCE SPEAKER: Are you going to put AUDIENCE SPEAKER: But if they didn't 13 13 inmates in your backyard with your kids? have prisoners, there would be more people out to work. MR. BILLY HICKMAN: Yes, actually, when MR. WIRTH: Anybody else want to ask a 15 15 the inmate program started, they were. question? 16 MR. DAVIS: Could you repeat the 16 MR. DAVIS: The inmates that are 17 question, please. incarcerated that do work at these labor programs are AUDIENCE SPEAKER: Who is paying for the required to turn around and pay court-ordered 19 inmates to come back and forth? restitution. They are required to turn around and pay 20 MR. DAVIS: The question was, who pays child support while they're incarcerated. They are 21 for the inmates to go back and forth to be transported required to turn around and have to pay room and board from the prison to Hickman's and then back to the while they're incarcerated. The people that work out 23 prison. That's a cost of Hickman's. at Hickman's, they do have to pay for their medical 24 24 AUDIENCE SPEAKER: Okay. What are they, expenses. 25 what level are they? AUDIENCE SPEAKER: Do you get a reduction Page 27 Page 29 MR. DAVIS: They're minimum security for --2 inmates. They're level 2s. And they go through a very MR. DAVIS: You get a reduction in your stringent custody criteria to determine whether they're taxes, yes, because the inmates are paying part of able to go outside of the institution or not. All of their incarceration. these inmates are ready to be released back out into AUDIENCE SPEAKER: Sorry. These the community, because their sentences are basically prisoners, these inmates that come in to Tonopah, pretty well completed. that's going to put our kids at risk if they break loose, are any of them drug dealers, people that did AUDIENCE SPEAKER: So they're minimum, right? armed robberies, or any of that? You said level 2. How do you know what a level 2 is, what crimes they MR. DAVIS: They are minimum security. 11 11 have done? AUDIENCE SPEAKER: What is level 2? 12 MR. DAVIS: Yes, ma'am, that's a very 12 MR. DAVIS: Level 2 means minimum 13 good question. security. There's five levels in the Department of AUDIENCE SPEAKER: We don't want Corrections. Level 1; death row, admin segregation, 14 those types of things. Level 2, maximum custody. So prisoners in Tonopah. that means your central unit, they're really bad MR. DIAZ: I understand that. But let 17 people. me -- let me talk a little bit about that just really 18 Level 3 is a medium custody inmate. quick. Currently, now if you look anywhere in the 19 Level 2 is a medium -- or minimum custody inmate. state of Arizona, ACI programs, we have approximately Level 1 is an inmate that is out on a release status, 2,000 inmates that work for us. The custody level that inside of a halfway house or something like this. we talked about being minimum custody coming out into 22 They're not incarcerated inside of an institution. the community, they're going out into the community 23 AUDIENCE SPEAKER: Is that -everywhere in the state; Wilcox, Springerville, Eagar, 24 Snowflake, in the City of Phoenix, Yuma. We have these MR. DAVIS: The inmates who work in one of these programs are 31.6 per cent less likely to programs all over the state.

Page 32 Page 30 AUDIENCE SPEAKER: But we don't want them had 300,000 chickens. Which is more impactful than the in Tonopah. farm right now that has four and a half million MR. DIAZ: I understand that. But the chickens. I think that as a company, as a family, we same inmates that are working alongside the highway are work to improve our operations every single day. the same inmates that are working for city and county, AUDIENCE SPEAKER: So every city you use okay. So when we talk about the safety and the level as a planning tool, right, to figure out what you're of concern, we have staff that are supervising those doing? inmates when they do come out. They don't just come AUDIENCE SPEAKER: Why don't you live out freely. next --There are municipalities. So that you MR. WIRTH: Okay. Hold it, hold it, hold it. Next question over here. You don't have a know, I'll give you an example. Let's talk about Gila Bend -- or not Gila Bend, let's talk about Casa microphone. Right there. 13 Grande. We have inmates that work for the City of Casa AUDIENCE SPEAKER: Okay. You had Grande in their parks. We have them work inside of mentioned earlier that the waste coming from the new their golf courses. facility that you're putting in is going to go and be 16 hauled off to a different facility. And no, they are not classified as 17 violent crimes. They cannot have a violent crime to AUDIENCE SPEAKER: Arlington. work for ACI, or come out into the community. That's AUDIENCE SPEAKER: Where is that facility part of our classification system. They cannot be a at that it's going to be hauled to? And is it going to sex offender. Okay. So everybody that comes out meets be hauled as a solid or a liquid? 21 21 that criteria. MR. BILLY HICKMAN: Solid. 22 22 AUDIENCE SPEAKER: They --AUDIENCE SPEAKER: And where is it being 23 MR. DIAZ: They may. 23 taken to? 24 24 MR. WIRTH: Next question. We're going MR. BILLY HICKMAN: We're looking at the to move on. Here we go. east side of Gila Bend. Page 31 Page 33 AUDIENCE SPEAKER: Why don't you clean up AUDIENCE SPEAKER: But you don't have a Arlington before you move out here and give us the same place yet? thing? MR. BILLY HICKMAN: We are currently MR. BILLY HICKMAN: Linda, I tried to -working on a lease right now. We haven't turned any dirt either, ma'am, so. But we are working on it in I tried to explain that earlier. That, you know, we grew very rapidly. And I do -- I do sit there and now advance to make sure that we are set up before we ever see that we have some issues that we need to take care put the first chicken in. of. That's what I was talking about earlier. We are AUDIENCE SPEAKER: Is that something you going to change our waste stream management. could utilize for the Arlington plant also? MR. BILLY HICKMAN: We don't need to. I would say by the -- within the next six to nine months that there's going to be a considerable That facility -- ma'am, that facility is already sort change in Arlington. We will be hauling off a certain of as efficient as it's going to get. There is no need amount of our waste streams, along with whatever is for any more chicken in our factory. We need to work produced here, to a separate site close to a natural on -- but like I said earlier, we are working on the gas line. I'm just telling you there is changes in waste stream removal from that location. effect. I understand we --And that's why I was trying to get --AUDIENCE SPEAKER: Why don't they show us it's very hard for me to convey everything. And I know 18 improvement before you -that you don't need to trust us or anything else. And I've got that. What I'm trying to say is we're working 19 AUDIENCE SPEAKER: Do that before you 20 come out here, not after. on our waste stream management at the existing facility. And we won't even -- we won't be -- we won't MR. GLENN HICKMAN: You know, can I answer that. I want to tell you -- I want to tell you be working on that when this one starts. It will the farm that we were born and raised on had 100,000 23 already be in place. 24 chickens. No, no, I want to tell you something. It AUDIENCE SPEAKER: But I'm concerned

about this one here. Because you kind of zoomed over

was more impactful than the farm that we moved to that

   it really fast earlier.
                                                                   going down 339th to --
           MR. BILLY HICKMAN: No, this --
                                                                           AUDIENCE SPEAKER: My road. Is that why
            AUDIENCE SPEAKER: Because it's not going
                                                                   they changed the speed limit to 50 miles an hour down
   to be stored there. That you are going to get a
                                                                   my road now?
   location to secure it at. You don't have one yet
                                                                           MR. BILLY HICKMAN: No. We have no idea
   you're saying. And so we are going to have to sit with
                                                                   why they changed that. We are looking at different
   it out here until you do facilitate --
                                                                   methods and traffic patterns.
            MR. BILLY HICKMAN: Yes, okay. That's
                                                                           AUDIENCE SPEAKER: She asked how many
   what I'm saying. I think that we're doing -- we're
                                                                   trucks.
   looking at a nine-month timeframe. That we're already
                                                                           MR. BILLY HICKMAN: Oh, I'm sorry. Okay.
                                                                  I'm sorry. Each chicken house will produce -- will
   working on a lease right now and a piece of property.
   So what I'm saying is that there is not going to be any
                                                                   take approximately one truckload of feed. It will
                                                                   produce about a half a truckload of chicken manure and
   manure stored on -- you know, that it's not going to be
                                                                   a half truckload of eggs.
   exposed to outside. It's not going to be processed
   outside. I don't know what else what I can say to
                                                               15
                                                                           AUDIENCE SPEAKER: Every day?
                                                               16
   convince you of that, or try and explain it to you.
                                                                           MR. BILLY HICKMAN: Every day.
                                                               17
17
   It's very hard, you know.
                                                                           AUDIENCE SPEAKER: A day?
            AUDIENCE SPEAKER: What's going to stop
                                                               18
                                                                           MR. BILLY HICKMAN: A day.
                                                               19
                                                                           AUDIENCE SPEAKER: How many is that each
   you from changing in the future?
20
           MR. WIRTH: Next question right here.
                                                               20
                                                                   day?
21
                                                               21
            AUDIENCE SPEAKER: How long will a
                                                                           AUDIENCE SPEAKER: How many trucks are
   chicken be able to lay eggs? And what do you do with
                                                               22
                                                                   you putting in?
    the hens when they're not longer able to produce?
                                                               23
                                                                           MR. BILLY HICKMAN: Each per house
24
                                                               24
   Could you explain in detail to us what de-pop is?
                                                                   approximately --
           MR. BILLY HICKMAN: Okay. So that's a
                                                                           AUDIENCE SPEAKER: Total?
                                                     Page 35
                                                                                                                     Page 37
   knowledgeable question. Currently, we either molt the
                                                                           MR. BILLY HICKMAN: Okay. First phase,
   chicken, or we have a straight lay cycle. And that's
                                                                   we're looking at seven houses. So it would be seven
    about 90 weeks long to 110 weeks long. And then at
                                                                   times -- seven times three and a half or so. Yeah.
   that point we use CO2 to euthanize them. And then we
                                                                           AUDIENCE SPEAKER: Per day?
    basically put it back into a soil amendment.
                                                                           MR. BILLY HICKMAN: Per day.
            AUDIENCE SPEAKER: That's disgusting.
                                                                           AUDIENCE SPEAKER: And that's just a
            MR. BILLY HICKMAN: Just to let you know,
                                                                   start.
   we're currently looking at putting in a -- you know, a
                                                                           MR. BILLY HICKMAN: Okay. Again, again,
   way of turning it back into pet food ingredients, back
                                                                   we're talking about this is -- this is what we would
   into some of the pet food companies.
                                                                   like to start with. And, of course, as I said earlier,
11
            AUDIENCE SPEAKER: Okay. We have --
                                                                   if we -- market share grows and that kind of thing.
                                                               12
   okay. We have 23 bus stops for our kids that run from
                                                                           AUDIENCE SPEAKER: What about the water?
                                                               13
   Indian School all the way down Salome Highway; 23 in
                                                                           MR. BILLY HICKMAN: Okay.
                                                               14
   the morning, 23 in the afternoon. How many semis are
                                                                           AUDIENCE SPEAKER: Okay. Right here,
   going to be travelling back and forth, warehouse-wise,
                                                               15
                                                                   question.
                                                               16
   delivering chicken manure, everything else for the
                                                                           MR. BILLY HICKMAN: Yes, sir.
   safety of our children?
                                                               17
                                                                           AUDIENCE SPEAKER: Okay. Part of the
                                                               18
           MR. BILLY HICKMAN: We ask -- so what
                                                                   reason a lot of us have moved to the Tonopah area is
19
   you're asking is what our truck -- our truck routing is
                                                                   the ability to see the stars so clearly at night. How
   going to be. The egg -- the finished egg products
                                                                   do you propose to maintain the current dark night that
   should be getting on I-10 heading either east or west.
                                                                   we have; in other words, reduce the light pollution
   The chicken manure will be heading southeast. And the
                                                               22
                                                                   from your plant, from your farm?
   feed is coming from our feed mill there in Arlington,
                                                               23
                                                                           MR. BILLY HICKMAN: The only thing I can
   west. We are -- we are looking at traffic patterns. I
                                                                   say is, you know, looking at the kind of street lamps
    don't know exactly. We are looking at hitting I-10,
                                                                   that go on, you know, it's half-shaded. I'm not -- I'm
```

```
Page 40
                                                     Page 38
  not an electrical engineer. But I know that it has
                                                                   civilians are going to get offered a job? That is the
                                                                   question.
   been brought up, and quite a few of the e-mails have
   been sent to me about the starry nights. So I'm only
                                                                           MR. BILLY HICKMAN: Well, sir, I have to
   saying that we can look at the same kind of light
                                                                   tell you, we've already been offering jobs to people
    fixtures as -- as what the cities, municipalities and
                                                                   right now. We just hired a couple of electricians that
   parking lots use now to keep it focused down.
                                                                   live in the area.
           AUDIENCE SPEAKER: There is always
                                                                           MR. WIRTH: But of the 100 day laborers,
    lighting and you know it.
                                                                   40 per cent, 50 per cent?
           MR. BILLY HICKMAN: We have to have a
                                                                           MR. BILLY HICKMAN: Oh, no, no, no. I'm
   certain amount of security too. I'm sorry.
                                                                   sorry. Maybe 20 at the most.
            AUDIENCE SPEAKER: Well, my question to
                                                               11
                                                                           AUDIENCE SPEAKER: What is your minimum
11
12
   you is, --
                                                                12
                                                                   wage?
13
                                                                13
            MR. BILLY HICKMAN: Yes.
                                                                           MR. WIRTH: I'm going to come to you
            AUDIENCE SPEAKER: -- do you have to use
                                                                   next. Go ahead.
                                                               15
15
   that company for inmates when you have all these good
                                                                           AUDIENCE SPEAKER: Okay. This is not a
   people here?
                                                               16
                                                                   technical question.
                                                               17
17
            MR. BILLY HICKMAN: Sir, I'm going to
                                                                           MR. BILLY HICKMAN: All right.
                                                               18
                                                                           AUDIENCE SPEAKER: My husband and I
   tell you. You know, I've heard over and over again
   that we only have minimum wage jobs and that we only
                                                                   worked hard all of our lives to buy some property here
   hire inmates. And somehow every week we punch out
                                                                   in Arizona and spend our winters here. This is a
   about 325 civilian checks. We sit there and have a --
                                                                   beautiful little town, a beautiful little valley. Did
   of that the payroll from that -- those people, and on a
                                                                   it give any one of you pause, when you looked at this
   yearly basis is a little over $40,000 a year. So there
                                                               23
                                                                   property, and saw that little town, and saw the
   is no -- there is no minimum wage on the average of
                                                                   surrounding people, did you think for a moment what you
   all.
                                                                   were going to be doing to this town and to these
                                                     Page 39
                                                                                                                     Page 41
                                                                   people?
            AUDIENCE SPEAKER: What is your minimum
    wage? What is your minimum wage?
                                                                           I just want to know, did you ever have a
           MR. BILLY HICKMAN: Just so our starting
                                                                   conversation? Did you ever talk to -- did you ever
    -- you ask more questions than everybody else, but --
                                                                   care?
                                                                           MR. GLENN HICKMAN: Ma'am, I'm a fourth
            AUDIENCE SPEAKER: What is your minimum
   wage?
                                                                   generation native of Arizona. And --
            MR. WIRTH: Billy, could you tell him how
                                                                           AUDIENCE SPEAKER: We know you lived on a
                                                                   farm.
   many employees you will have in the new facility at
   full build-out, and then also how many of those will be
                                                                           MR. GLENN HICKMAN: No. What I'm trying
   prison labor.
                                                                   to tell you is, we are very sensitive. We sell a very
            MR. BILLY HICKMAN: If we -- if these --
                                                                   public -- I'm sorry, I missed the -- anyway. So we
   if phase 2 is completed, there would be approximately
                                                                   sell a public product. We try to do -- we try to
13
   100 employees.
                                                                   conduct our business responsibly. We're here tonight
14
            AUDIENCE SPEAKER: And of that, how
                                                                   by choice. And we are trying to answer those
15
   many prison inmates?
                                                                   questions, those concerns right now.
            MR. BILLY HICKMAN: Well, there would be
                                                                           AUDIENCE SPEAKER: Answer my question.
   a portion that would be -- if possibly in the manure --
                                                                   You never answered my question. Did you ever have a
   in the manure program. But if you look at our
                                                                   conversation? Did you ever say, I wonder what we're
   existing -- our existing payroll, some of the laborious
                                                                   doing to Tonopah? I wonder what we're doing to these
   jobs and the hand-touch jobs like vaccinating chickens,
                                                                   people? Did that conversation ever come up?
   moving chickens, those kind of jobs have been very,
                                                                           AUDIENCE SPEAKER: No, no. You guys
                                                               22
   very difficult to get civilian labor to do. So that a
                                                                   didn't consider our view.
   lot of those jobs are taken care of by the work crews
                                                               23
                                                                           AUDIENCE SPEAKER: It's a simple
                                                               24
24
   out of the ACI program.
                                                                   question.
            AUDIENCE SPEAKER: How many -- how many
                                                                           MR. GLENN HICKMAN: No, ma'am. We're
```

Page 44 Page 42 here tonight to answer all your questions. MR. GLENN HICKMAN: Let me get to the AUDIENCE SPEAKER: Answer her question. answer in general. Okay. Number one, we start way AUDIENCE SPEAKER: Okay. The second part above minimum wage. Everybody in the company is to the maybe 20 per cent of civilians being employed reviewed at least annually. Everybody in the company, out there, okay, what is the wage going to be for every single person in the company gets profit sharing, those? every single person. MR. GLENN HICKMAN: You've got that Every single person in the company backwards. It's 80 per cent civilian, 20 per cent qualifies for a 401(k) that we match within 90 days. inmates. It's the other way around. Every single person -- every single person in our AUDIENCE SPEAKER: Okay. Okay. So of company, we pay over half of their medical insurance. the 80 per cent civilians, what's the wage they're 11 So we offer a very competitive program. going to be making? Are they going to be able to AUDIENCE SPEAKER: Can I put in for a 13 afford rent out here? Are they going to be able to public relations job? make a living, you know? AUDIENCE SPEAKER: My question, once I mean -- or is it going to be a minimum again, is, how much water will you be pumping out of wage job? They're not going to be able to afford rent, the Tonopah aquifer daily to clean your eggs, to water power, you know, car insurance. You're not going to be your chickens, to use them for your swamp coolers that able to afford that. So, I mean, are they going to get you use to cool the chickens, because I know they have replaced a couple years down the road with more to be kept at a specific temperature so they don't get inmates, because the civilians out here cannot --20 angry or die. 21 21 cannot do it, and cannot make a life out of it? How much water are you guys going to be 22 pulling out of the Tonopah aquifer? This is supposedly MR. GLENN HICKMAN: Let Jerry explain our program. Jerry works -- Jerry is one of our key one of the largest natural aquifers in the world. And 24 employees. if it gets polluted, if we get dysemia, salmonella or 25 E. coli or anything down in the system, they will never MR. HALL: Currently, I work in the -- I Page 43 Page 45 run the plant. Okay. And we currently employ several get it cleaned out. That's why I'm concerned. people that work and live in the Tonopah area now. MR. BILLY HICKMAN: Okay. Number one, we They employ with us over at our ranch now. Okay. I don't use near the amount of water that's being used don't know if I should speak to wages or anything. But right now in crop farming. We use -- currently, we use all of the wages -about 180 acre-feet for the Arlington complex. So I AUDIENCE SPEAKER: What do they start at would say that on the first phase we use about 90 acre-feet per year. and what do they make? MR. HALL: What's your occupation? If Which is substantially less. If any of you are going to come in as a mechanic, you're going to you guys are farmers, you know that that's substantially less than the 160 acres that are probably be hired as an apprentice --11 AUDIENCE SPEAKER: What's your minimum being pumped out at the rate of four to five acre-feet 12 per acre. 12 wage? 13 MR. HALL: We start at \$8.50 an hour. AUDIENCE SPEAKER: Acre-feet, how much is 14 That's the lowest. That's above minimum wage, okay. that in gallons? 15 And we --MR. BILLY HICKMAN: An acre-foot is, I AUDIENCE SPEAKER: When are they eligible think, 360,000 gallons. Okay. So what I'm saying, for their first, second and third raises? ma'am, is we use a lot less than what's being used now. 18 18 MR. HALL: Oh, ninety days, six months AUDIENCE SPEAKER: What do you do to 19 19 recycle wash water? and a year automatically. 20 AUDIENCE SPEAKER: What benefits do you 20 MR. BILLY HICKMAN: No. We don't recycle 21 pay? the wash water. And that's the only thing -- you know, 22 actually, we're talking -- and all we're talking about MR. HALL: We have a great benefit 23 program, actually. is wash water and the biodegradable certain soap that

And we have talked to the farmers so that

AUDIENCE SPEAKER: Walmart says they have

a great one too, but nobody gets one.

24

25

is approved.

Page 48 Page 46 we can actually use -- they can utilize some of that. THE REPORTER: I can't hear. Along with the pump access that's never been installed AUDIENCE SPEAKER: We can't hear. AUDIENCE SPEAKER: We have a natural hot there. We will use that with the pump access, along with that, the wash water. And they will use that on springs here in Tonopah. And people come from all over the remaining acres that they're farming. There is no the world to soak in these healing waters for pain harmful chemicals, there is nothing in that. relief, for relaxation, for quiet. Certainly not for AUDIENCE SPEAKER: How many gallons a flies and smells. day? This is a family place. We have a lot of MR. BILLY HICKMAN: That's correct, yes. people here that this is where they live. It's kind of AUDIENCE SPEAKER: Because we had a bedroom community for the factory and for Palo Verde. problems with that sludge that they dried out here. And what kind of impact do you think that this is going 12 MR. BILLY HICKMAN: I understand that to have on this clean water? 13 totally. 13 I see in some of the court stuff you AUDIENCE SPEAKER: You've asked us not to folks have been through, it seems like you kind of get 15 compare Arlington. Can you give me an example or two, away with, like we didn't do it, because it was already please, of why don't compare. 16 dirty. Our water is clean. This water is clean right 17 17 MR. BILLY HICKMAN: Well, because it's a now. You're putting your factory into our clean water. And I'm also very curious about how you whole different waste stream management system. We actually took Doris, Lorna and Mike Wirth down to our 19 intend to protect the Chiricahua leopard frog. It's an Maricopa facility so they could see the difference of endangered indigenous species. I actually spoke with 21 what we do in Maricopa at that facility there. the conservation manager at the Phoenix Zoo this 22 It gets all hauled off. And it's gets morning. They're going to look into it. And you may composted and put on to the Ak-Chin Indian community's 23 hear from them sometime in the near future. But crops and fields, along with edibles. So that's why we we have a thriving wild population of an endangered went down there, just to show with our management team indigenous species here in Tonopah. And I believe that Page 47 Page 49 down there what happens when there is no fertilizer on they are federally protected under the Environmental the facility. Protection Act. And that might be a little trouble, And along with that, there's no along with the people. So -- and this gentleman would fertilizer in the facility that is at the higher also like to say something. But -density rate that I was talking about earlier in the AUDIENCE SPEAKER: And we also have enclosures; you know, instead of being 116 inches per pictures of --AUDIENCE SPEAKER: I'm a farmer. Put bird, that was at 67. So they were -- they went down there to -- to evaluate what we do down there. away your DDT. So that's what I'm saying. It's hard. AUDIENCE SPEAKER: Just real quick. We took some people. And we can't take everybody down Figure it out. You've probably never been to the hot there. I took people that I thought had a pretty good springs right over here on the corner. But there is an oasis right over here on the corner. And it is say in the community. AUDIENCE SPEAKER: So the big -- the big pristine. I come down here from Montana just to soak problems in Arlington are not going to be here? in this water. When there is trucks going by, I ain't going to come. It's -- everybody's going to leave. MR. BILLY HICKMAN: No. And I will continue saying that over and over again. Because I Who is going to pay our bills down here for the hot understand we've earned some distrust. Everyone in springs when there ain't nobody? this room has said why, why, why. And I understand. AUDIENCE SPEAKER: Who is going to 19 That's why I keep saying, we are changing our 19 protect us if -processes, even at Arlington, as we speak. 20 AUDIENCE SPEAKER: Don't spoil our 21 Okay. Mike sat down. I'm going to economy. Is your business more important than theirs? 22 ask -- can -- the lady in the back. First, she has a 22 AUDIENCE SPEAKER: Okay. I have a 23 sign. 23 question about the mortality rate of the chickens. On AUDIENCE SPEAKER: Sure. A couple of how often you change them out, and what you do with

questions for you. This is a --

about that.

Page 52 Page 50 MR. BILLY HICKMAN: Ma'am, I already safe, sir. answered that once before. I'm sorry. It is about 90 2 AUDIENCE SPEAKER: How much do you want? weeks, 90 to 110 weeks. MR. BILLY HICKMAN: What I'm saying --AUDIENCE SPEAKER: What about our hot what I think -- I understand -- I understand the importance of your business and your livelihood. It's springs? AUDIENCE SPEAKER: Hi, my name is James the same thing with us. And we take our customers, we Moon. I'm the owner of Tonopah Joe's. And I would take our customers very seriously. We take their like to ask you first the questions. Do you people requests to supply very seriously just like you do. know what Tonopah is? Can you tell me what the Tonopah We have to -- we want to be a safe -- we name means? want to be a safe business also. We don't want to be a 11 11 MR. BILLY HICKMAN: What does Tonopah negative impact to your business. I understand that. 12 mean? That's our entire -- that's our entire reason for being 13 AUDIENCE SPEAKER: Do you know how I know here and trying to explain how we do things about Tonopah? I read the newspaper 2007. Tonopah differently. 15 means hot waters growing in the town, in the bush. And So I don't know if I can answer your 16 one of -- one of ASU professors predicted Tonopah would question, because you're saying that you're concerned 17 be another Scottsdale resort in 10, 15 years. about our business ruining your business. And I have no intention. I'm hoping that we enhance your I emigrated from Korea when I was 26. I business. That there is more activity out here. was a real poor, poor boy when I was young, nine years old. I sold (indiscernible) door to door. And then I 20 AUDIENCE SPEAKER: Do you have any 21 heard there is a great American dream happening, United studies on what you're going to do to the environment in the future; the water table, the quality of the States. When I was young, I worked so hard and I had 23 the great American dream. 23 water? Because we get ours tested every month. And if 24 24 there's a problem, we're coming to see you. I came here 1975. I went to ASU. I 25 study hard. I work two jobs. I work 18 hours a day. MR. BILLY HICKMAN: I keep hearing that Page 51 Page 53 1 I slept on the -- okay. I'm going to have a good same thing. I don't understand where you think that question. I slept -- I slept 30 seconds after work, there is going to be an introduction of any negative after school. Why the red light. That's how my life particles into the water table. We are all on 40 years in America. concrete. And we have -- we have lined ponds. They're --And after I read the article, I decided to pour everything in Tonopah, because I had American AUDIENCE SPEAKER: The lined ponds -dream. Not just to be rich. But I have big dreams of MR. BILLY HICKMAN: The lined ponds only poor people who want to study like me. I couldn't go hold the wash water from the processing plant. It to college in Korea, because I didn't have a penny. I would be as if you were washing, you're washing your had \$30 in my pocket and came here to be in American laundry, and then putting them out on a line. We have 11 lined ponds. Everything is a dry waste system. 11 country. AUDIENCE SPEAKER: He's trying to say 12 12 MR. WIRTH: Billy, Billy, Billy, are you 13 13 you're ruining his business. required to get permits through Maricopa County 14 AUDIENCE SPEAKER: Okay. Let me ask you Environmental Services and Maricopa County Air Quality? a real question. You're the ones with clout. I heard 15 Are you required to get permits from those two 16 you are richest people -- one of the richest people in agencies? Arizona. We have -- I run the restaurant. I have so 17 MR. BILLY HICKMAN: We need to -- no. We many friends here. They come to my restaurant. They need to -- the only thing we need to do is make sure tell me this is the peaceful, most paradise in the our lined ponds meet the 20-year -- the 20-year 20 world. That's why they move out of city and they got lifecycle. the homes in here. AUDIENCE SPEAKER: My question -- my Are you -- the money is more vital than question is why you would choose to put a facility like thousands of people in Tonopah, people's life? Tell me 23 that right next to a town when you have thousands of

acres of bare land with nothing on it all along I-10.

It appears to me that everything you're doing is all

MR. BILLY HICKMAN: We plan on keeping it

for you.

These folks in this room have worked their whole lives to have a little piece of property out here, and you're going to kill that. Nobody will buy out here. You know, I don't know how you sleep at night when you think about all the lives you're going to affect out here. You could put that plant any place along I-10. And it is all about you.

MR. BILLY HICKMAN: Ma'am, we still need people to work. And I will -- I will sit there and challenge you that once we start hiring people that we don't have people show up that want jobs there.

AUDIENCE SPEAKER: Are you going to ensure that they do their jobs right and they don't accidently flush something down into our water table. Because I've got news for you, everybody doesn't do their job right all the time.

MR. BILLY HICKMAN: I understand.
AUDIENCE SPEAKER: Hey, I got a point.
My question was very similar to this lady's question.
There is so much vacant land west of Tonopah, west, way west, and why couldn't you have bought land out there?
Unless you got this on a real good -- got a real good deal.

AUDIENCE SPEAKER: There is nobody living

Page 55

out there.

MR. BILLY HICKMAN: We still need -- we still need to have an access to labor. Ma'am, it's the same question. And I will sit there and say there are people that still need jobs. We still need people that have a need for jobs. If we go out in the middle of nowhere, there is no one there to sit there and work at the facilities.

AUDIENCE SPEAKER: I moved here in '96. The realtor told me an important thing, that Tonopah was a growth hub. So help me, it will be better that -- my realtor told me in '96 that Tonopah was a growth hub. He said tell that to your lending institution, it will help you get a better deal on your loan.

There are realtors out here that have developments north of I-10. Between the Hassayampa River and about 424th Avenue, there's going to be between 80,000 and 100,000 homes go in. Did you let the developers know you're building here?

MR. BILLY HICKMAN: No, sir. We -- like we said earlier, this was an agricultural-zoned property, and we're an agricultural use.

AUDIENCE SPEAKER: But you don't care about the peoples that live in this town.

MR. BILLY HICKMAN: We care about all people that live in Arizona.

AUDIENCE SPEAKER: I have a five-month-old daughter. Do you expect me to isolate here in the house from the stench, the stink that you guys are causing to Tonopah?

MR. WIRTH: Here, I have another question here.

AUDIENCE SPEAKER: I have a couple of them here. Number one, we would like to know if you have ever had anybody escape or go off site with prisoners when they're working there, from Hickman's?

AUDIENCE SPEAKER: I've been here for the last eight years. And I haven't seen that happening in the last eight years.

AUDIENCE SPEAKER: That you're aware of. That you're aware of.

MR. DAVIS: I've been working for Arizona Correctional for eight years --

AUDIENCE SPEAKER: We can't hear you.

AUDIENCE SPEAKER: We can't hear you.

AUDIENCE SPEAKER: That's the issue for us. Because a lot of us do live very close to your

facility that you're wanting to put in. We fought 15 years to keep prisoners out of this area, all types

Page 57

of prisoners. And we're really not looking forward to having prisoners brought in here to work.

And my suggestion would be, and others that I've talked with, a great place for you to go would be at Buckeye that has claimed you all along anyway. Go down Highway 85 by the prison, by the landfill, by the dairy. They've got all kind of prison workers there.

That would be so much better for us. And you have all your prison workers right there. Any construction there, they have that also down there too, and a dairy and an industrialized area. But that's a suggestion to you.

But according to what they were talking about with the developers too, we do have a lot of developers that have proposed master plan communities come out here, not just north, we've got north and south. And I talked to some of them.

They go all the way from the river all the way; in fact, some right around this area. That is right by the main camp here. And, of course, the prisoners we brought out, they tried to put right here in the main camp that we had to overcome. So we've done this for the last 40 years fighting all of these out of here.

Page 58 Page 60 And we told you before, we're not opposed explain how we minimize the impact of those operations. to your project. Just don't put it out here. Put it We're trying to explain -- and we're not someplace else. dodging any questions. We're explaining the good, the MR. BILLY HICKMAN: I don't know what the bad, the ugly, the maybe, as best as we possibly can. answer to that question could be since we've had this So I don't know -- I don't know that you can discussion quite a few times, Doris. demonstrate any proof that we will cause surrounding AUDIENCE SPEAKER: But not with Buckeye. property values to go down. I'm talking about Buckeye. AUDIENCE SPEAKER: Arlington is trying to MR. BILLY HICKMAN: No, I understand. I kick you out. totally understand. This piece of property, of course, AUDIENCE SPEAKER: Go drive by near the 11 plant. met everything that we were looking at as far as 12 proximity to I-10, the east-west corridor to Phoenix AUDIENCE SPEAKER: Mine is a simple and California. The proximity to our feed mill. I can 13 question. AUDIENCE SPEAKER: That's not me. say the same things over and over again also. And I want to be -- I want to be as 15 AUDIENCE SPEAKER: Your feces dryers that 16 accommodating. But at the same time we have talked you've got coming in; do they have filters? 17 about this. This is a place that lays out perfectly AUDIENCE SPEAKER: We can't hear. for the natural air flow. AUDIENCE SPEAKER: The feces dryers, AUDIENCE SPEAKER: Air flow or tests? manure, whatever you want to call it, do they have air 20 MR. GLENN HICKMAN: Can I address -filters on the exhaust? 21 21 AUDIENCE SPEAKER: How about building out MR. BILLY HICKMAN: No, they don't. We by the dairy? bought -- you know, I'm just being honest with you. 23 AUDIENCE SPEAKER: No. no. You asked something specifically and I'm saying they 24 MR. GLENN HICKMAN: Let me -- we've been don't. But, you know, right now we -- you're asking asked the tax issue quite bit. Okay. We've also been the 40 acres that we sit there and dry manure on don't Page 59 Page 61 told that you guys are underrepresented when it comes have airs filters on it either. to county, and services and those kind of things. And so there's a lot less activity that Okay. happens in an enclosed drum. You know, which it is. Rick, I resent that, because that's not It's about 30-foot long. And it's an enclosed drum. true. And sitting here running a tractor and a compost turner AUDIENCE SPEAKER: Yes, it is. back and forth through 40 acres of chicken manure, MR. GLENN HICKMAN: So let me -- let me there's a lot less -- there's a lot less activity. just state for a very factual thing. At build-out this So that's why I keep saying, yes. complex will pay 100 times more property taxes than Because we talk about ammonia. You know, this is a what the farm ground that's there today. So we're not four million BTU burner through there, that will sit 11 tax dodgers, we're taxpayers. there. And I'm trying to be as open and informative as 12 AUDIENCE SPEAKER: Tonopah doesn't get possible. But yes. Yes. Well, I'm sorry, this 13 any of that. lady -- go ahead, ma'am. 14 AUDIENCE SPEAKER: I think it's the 14 AUDIENCE SPEAKER: I've heard a lot tonight about -- I've heard a lot tonight about how you perception of most of us here that this is a situation are family oriented and a family business. And that of the big guy getting bigger at the expense of the you care about families, and care about people. But little guy. And as far as going farther out, you can bus the prisoners in. Why can't you have carpool vans the bottom line is, it seems like you are -- your priority is your business and everyone else's 19 like Palo Verde does? 20 properties and businesses be damned. How do you MR. GLENN HICKMAN: We've actually respond to that? anticipated that we might have to do both, and we're MR. GLENN HICKMAN: I think -- I think we prepared to do that. I don't know if you guys know, I spent the last hour and a half responding to that. 23 mean, and we talked -- we keep talking about jobs and 24 That's what we keep telling you. We're trying to those kind of things.

We're open five days a week in downtown

explain what our operations are. We're trying to

Buckeye. And the human resource department is represented here. And all we do is interview, and hire and train people right there for these jobs. And so if we need to assist in transportation we will.

AUDIENCE SPEAKER: But that doesn't answer my question. Why couldn't you move farther out? You said because the transportation, but you could bus the prisoners. Why can't you bus --

MR. GLENN HICKMAN: Okay. Let me address your question, ma'am. We sell a commodity product that is at the whim of the market. We don't get to set our prices. So we have to be as efficient as possible. So I know what you're asking. But everything that you ask that adds cost to us, makes us less competitive in the marketplace.

AUDIENCE SPEAKER: I would like to address some of the things that have already been addressed about the air quality, and the stench that's coming, and the property values. Say your chickens are going in. Okay, you're talking like it's a done deal. What's going to happen to all of us? All my neighbors, a lot of them have health issues. What's going to happen when our properties go down, our health fails? Who do we seek for restitution for spending our whole life savings to be here?

Page 63

MR. GLENN HICKMAN: Okay. The question is, once again, about how we're going to impact the neighbors. And I can just tell you, on 91st Avenue we were the only ones there. And when we moved out, there was lots of people living next to us. In Arlington we were the only ones there. There's 30 or 40 homes that have been built on our fence line. So --

AUDIENCE SPEAKER: We were here first. MR. GLENN HICKMAN: I understand. I understand.

AUDIENCE SPEAKER: We were here first.

MR. GLENN HICKMAN: I understand. But what I'm saying is, I don't exactly know that we are going to have a negative impact.

AUDIENCE SPEAKER: Would you like to buy my house right now? We're just a couple miles north of the freeway, a very nice subdivision.

AUDIENCE SPEAKER: I have a follow-up question to the comment about the soil amendments. Is that going to the dead chicken slurry that's going to be amended into the soil? And one of your employees said that that was the main source of smell at your plant. The fertilizer was not the biggest odor offender, it happens to be the slurry; isn't that correct?

MR. BILLY HICKMAN: When we compose it, you know, that is -- you know, that is a high level of protein which we were talking about, you know, talking about manure and the amount of protein nitrogen. So that is -- that is the waste stream that we have found that we need to sit there and work on. So it's through the composting of the chicken, mm-hm.

AUDIENCE SPEAKER: And so that's spread -- that's going to be spread out across the fields, whatever part is used as agriculture, as the fertilizer?

MR. BILLY HICKMAN: Oh, no, no, no, no, no. 13 no. I'm sorry. I'm sorry. No, that is --

AUDIENCE SPEAKER: You called it a soil amendment.

MR. BILLY HICKMAN: No. And I got you. But no, there is nothing being applied. It has to go through -- it has to go through several kill tests to make sure it's pathogen-free. So it has to go through composting. And most of that product, because of the richness of it, and it's not something we do is, you know, but the richness of it, most of it goes down to Wilcox for the corn and bean crops down there.

AUDIENCE SPEAKER: My other part of my question --

MR. BILLY HICKMAN: I'm sorry.

AUDIENCE SPEAKER: Go ahead.

AUDIENCE SPEAKER: No matter what we say, you're still going to build.

MR. BILLY HICKMAN: We still want to build. Today is where we're just trying to inform you of our practices, and our building and everything's that going to --

AUDIENCE SPEAKER: We have nothing to say about --

AUDIENCE SPEAKER: The next statement I have to make has to do with what you read at the beginning. A lot of people are concerned that supervisor Hickman is not here. He's supposed to be representing us. And it's apparent with his response to you asking him not to be here, he is more fully representing Hickman's Farms than he is us.

And I'm not done. The timing -- the thing that came out first was that you looked at this property for over two years; is that correct?

MR. BILLY HICKMAN: Okay.

AUDIENCE SPEAKER: No, no, no. Yes or no; two years is what we've heard; is that not true?

MR. BILLY HICKMAN: Can I answer it --

AUDIENCE SPEAKER: We're going to assume

23

Page 69

1/9/2014 Neighborhood Meeting Page 66 1 it's yes. You've been watching it. But then you chose So, you know, I don't know how to say -to pay double after he was assigned as the supervisor. there's less -- there's less birds per square or per That is a concern for people. Whether that's true or not, you've got to look at that image and go, you know, this sucks. That should not happen. And he's concentration. green-lighting with whether he abstains or not. He's got other influences on the other supervisors. He'll get in bed with their projects if you'll help me with mine. And that's where his public image has gone sour. anything about the smell? 11 MR. BILLY HICKMAN: Can I just say that 11 12 was -- that was answered in that statement. That Maricopa County has no say over agriculture. So 14 it's --15 AUDIENCE SPEAKER: He's working to get this done down there. He has to talk to air quality people. You have got a lot of things, other than just the county that has to be dealt with. Roads have to be approved. That's all part of his job. And he's 20 supposed to represent us. 21

AUDIENCE SPEAKER: But he's not. He's a coward for not being here.

AUDIENCE SPEAKER: I would like to say something here. We lived in Glendale. And the Hickmans had a ranch over on 67th Avenue to begin with,

23

24

11

13

14

17

19

20

22

23

24

Page 67

and then they went out to 91st Avenue. And I've got friends out there. And they're a nice family. And we are not here to beat you guys up or anything.

It's a business decision. We recognize that. We don't think it was made with our best interests in mind. It was made with yours. And I know it's business. I understand that.

However, my question is, since the plant in Arlington was built back in the '90s, or late '90s, would you enumerate the specific mitigating processes, or procedures or equipment that's been developed that you intend to use to make this a better plant.

There's some in our group that would like to look into that and see how effective are those things. And you don't have to respond to that, but I think it would behoove you to do so. And anyway, that's all I want to say.

MR. BILLY HICKMAN: Sir, I think we have already talked about the different type of housing that's going to be in place here instead of what's -if you go back to 67th Avenue, or 91st Avenue, or even in Arlington, today's technology and the way the birds are managed and the enclosures that they'll be in are so much different. And they are so much more friendly for the bids and the environment.

foot, you know. So that they have more space. And so there's more space for the droppings inside the chicken house, inside the belt systems. So there is not the AUDIENCE SPEAKER: How about the smell? MR. BILLY HICKMAN: I'm sorry? AUDIENCE SPEAKER: Are you going to do

MR. BILLY HICKMAN: Not at this time. There is some developments and products with marginal success, you know, as far as -- as far as chicken manure or hog manure. There is -- we're constantly meeting -- you know, we are constantly meeting with vendors to sit there and run tests. And seeing with meters if we can monitor the success.

We -- honestly, we take it very seriously about an area. And we are working on it. We recognize Arlington. And Tonopah will be entirely different than Arlington. And Arlington won't be like Arlington in nine months, like I said. I wake up every day trying to do the right thing. Okay.

AUDIENCE SPEAKER: Okay. Is this on? Okay. As you stand up there and look out, you can

probably understand how Custer felt. But anyway, I thank you for coming. And as you said earlier that you weren't a tax dodger, but you were a taxpayer.

Well, we're unincorporated, unfortunately. So that doesn't really come to us directly. So we do get a little bit. But the question I have for you, and I'll just assume that you're the one. And the question I have, as the chairman of the fire board, will you commit to joining the fire board, or district? We need the help.

MR. BILLY HICKMAN: I think we'll have to sit down and discuss the benefits you bring to us. Isn't that right?

AUDIENCE SPEAKER: So --

15 MR. BILLY HICKMAN: So now it's my turn to ask that.

AUDIENCE SPEAKER: Sure.

MR. BILLY HICKMAN: So I think we will be fair and equitable.

AUDIENCE SPEAKER: Not on the terms when I joined them.

AUDIENCE SPEAKER: Well, I don't know that you should --

AUDIENCE SPEAKER: It's not about what you get out of them. It's all about you.

Page 72 Page 70 MR. BILLY HICKMAN: I'm sorry. there is no liquid waste handling systems, you know. AUDIENCE SPEAKER: But anyway, that's the There is an evaporation pond for the wash water. So it's -- that's your question; if there was some kind of question I have, is will you commit to joining the fire district, and to help everybody out. That's about the liquid waste management plan. But we don't have liquid only help you can give us, except a few jobs. And that waste. It's dry. way would be a help, and it would answer my question. AUDIENCE SPEAKER: So that's the umbrella AUDIENCE SPEAKER: He won't answer it. you hide under. MR. BILLY HICKMAN: Okay. I would be AUDIENCE SPEAKER: That is the umbrella glad to sit down with you. Is this your chief? That's they're hiding under, yes. They got in under the -- or somebody and say what the -- okay. I would be agriculture law. It has nothing to do with farming. 11 happy. It's a factory that produces fertilizer. That's all it 12 MR. WIRTH: John, are you here? John, does. Everything else is a byproduct, right. 13 grab a microphone and come up here and tell us what you Two years ago when you bought the do here, or come back here. John come here. property, did you communicate with the Tonopah Valley John, they have a question on the fire Association, with Tonopah Valley Community Council, or 16 district out here. And would it behoove Hickman Ranch the brand new Chamber of Commerce? Have you talked to here to join the fire department. And you need to make anybody in that two years about what you people are that speech for us. going to do out here? We're just now getting this JOHN TEIXEIRA: What was the question community notice from you that you're building. You're again? It behooves everybody to join the fire breaking ground February 2nd. February 2nd you're 21 district, because many hands make light work. We breaking ground for this, right? 22 support the community in that aspect. I can tell you MR. BILLY HICKMAN: We hope so. I've checked the parcels, because it's three parcels, 23 AUDIENCE SPEAKER: When is the breaking 24 24 correct? ground on it? 25 25 MR. BILLY HICKMAN: I'm sorry? MR. BILLY HICKMAN: It's actually more Page 71 Page 73 than that, sir. There was quite a few parcels. AUDIENCE SPEAKER: When are you breaking JOHN TEIXEIRA: Okay. Well, where you ground on this? are building on the east side, it's not part of the MR. BILLY HICKMAN: We're hoping that we fire district, I can tell you that. Or the east side can sit there and start in the next 21 to 30 days. AUDIENCE SPEAKER: 21 to 30 days. You've is and the west side where you are going to build is not. I do know that. been dealing with this for two years through the board AUDIENCE SPEAKER: So it's okay to burn of supervisors with nobody in here knowing nothing about nothing. it down the first night, right? JOHN TEIXEIRA: No. We put out all fires MR. BILLY HICKMAN: I think if you remember, I even stopped and talked to you and gave you in Tonopah. 11 11 AUDIENCE SPEAKER: My question is about the timeline. 12 an impact study. On your impact study, what does your AUDIENCE SPEAKER: At that time you 13 impact study say about if a business is on 411th from intimated to me that you had no idea who lived out 14 the smell? here, and what was going on out here. 15 15 AUDIENCE SPEAKER: You lie. MR. BILLY HICKMAN: So the question was, 16 what impact study -- I guess, I'm sorry, I'm fairly MR. BILLY HICKMAN: Why am I going to naive, you know, when we do things. But all we were -lie? I'm saying, I talked to you. I stopped at your business. You asked about the timeline. And I'll give you know, the property was zoned agriculture. And this you the same answer. I met with the owners of O&E was agriculture. So there wasn't a request to sit there and look at the impact on businesses or anything Farms in October, bought the property, and closed on in it in November. else, because this is an agricultural business. I will 22 22 say, yes, that there is no impact study. I think I saw you in December, no more 23 AUDIENCE SPEAKER: No environmental 23 than two and a half weeks after we closed on the 24 property. We can try and -- so I don't think -- I studies, not even -don't think I misled you. I think I came and spoke to

MR. BILLY HICKMAN: No. There is no --

Page 74 Page 76 you. consult any realtors when you -- when you printed this AUDIENCE SPEAKER: You misled this entire up? community by your negligence and breach of fiduciary MR. BILLY HICKMAN: I think, Karen, can duty on the board of supervisors. Breach of fiduciary you just answer that. duty on the board of supervisors. MS. KERR: The information that was AUDIENCE SPEAKER: Can you hear me now? obtained was from --Can you hear me in the back? With respect to air AUDIENCE SPEAKER: Your microphone. quality, and I apologize because I have to compare this MS. KERR: I'm sorry. I'm pretty loud. to the Arlington plant. Because you guys talk about I thought that was loud enough. the technology reduction in the dander, debris and The information for that, that statement odor. I was wondering what measurements you have in that says there is no direct correlation is -- comes parts per million of the dander and the debris, and in directly from the Maricopa County Assessor's website. 13 certain radiuses from the plant in Arlington, versus You can look at their page and you can what the new reductions will be in parts per million as see that a property across from the Arlington farm, the well as the saturation in the air of the odor. value was at one year, it was at a dollar amount in 16 I have children. I have allergies 2007. It would fluctuate up, it would fluctuate down. myself. And I'm sure many people have allergies. And There is no direct correlation from the properties we're curious about what the scientific studies have directly across the street from the existing farm in been done to show the effectiveness of reduction, and Arlington. So there is not a way that you can draw how far out is it going to reduce to make it safe for that line that it will be because of the farm if there 21 21 the people with allergies. will be an increase or a decrease from your property. 22 AUDIENCE SPEAKER: It's a two-mile 22 We've also on the very back, we show 23 radius. 23 where other complexes have come in. When Perryville 24 Prison came in, how PebbleCreek is now there. We've AUDIENCE SPEAKER: They did not. 25 MR. BILLY HICKMAN: No. The only got Verrado across the way. McLane Trucking that is --Page 75 Page 77 thing -- the one thing that we measure is through our AUDIENCE SPEAKER: No -management plan, is the ammonia emission out of the --MS. KERR: McLane Trucking, which is a off the chicken house. That's the only thing that we very busy traffic area, is off of McDowell and currently measure at this time to make sure we meet the Litchfield. And it is still a functioning business standards. that is safe. And we will have trucks -- we will have AUDIENCE SPEAKER: But what are the parts substantially less trucks than the trucks there. per million? I mean, have you guys done a scientific AUDIENCE SPEAKER: It don't stink there. study on how effective the reduction is? Like how many MS. KERR: In regards to the stink, and parts per million are these? How many millions of your words of the stink, and the question -- I will chickens are there going to be? Where is all that answer the question that was asked. pet -- the dander going? I mean, these allergens, AUDIENCE SPEAKER: The stink is in the yeah, I mean, they are going to saturate the air in city. It's not out here. certain ways. How effective is the technology? Are MS. KERR: The question was asked about 14 there any scientific publications? property value and how we can correlate if it was directly increased or decreased because of the farm. MR. BILLY HICKMAN: No. I don't have anything scientific to talk about the dander off the There is no way -- realtors, Maricopa County Assessor's chickens or any -- or any animals. The only thing we page, tax bills, the research has been done. And you measure is the ammonia release off of the chickens into 18 cannot show that it has gone up or down because of 19 19 the chicken house. that. 20 20 AUDIENCE SPEAKER: I call it a class Because the market in the last 10 years, and anybody who has lived in Arizona knows, you could action lawsuit. 22 AUDIENCE SPEAKER: Okay. In this be living in PebbleCreek and your value goes up or material you all handed out, it says there is no great down. It has nothing to do with a chicken farm living

AUDIENCE SPEAKER: Anyone with common

across the street from you.

indication that property values near or next to the

farm have decreased due to their location. Did you all

did he go? Oh, it's here.

Page 81

Page 78 sense knows values are going to go down if they live MR. WIRTH: Here we go. next door to a chicken farm. AUDIENCE SPEAKER: I'm a little more MR. WIRTH: There is a follow-up there. interested in -- I'm a little more interested in things AUDIENCE SPEAKER: I have a follow-up. I like what I'm personally allowed to do on my land, am a realtor. I live here in Tonopah. I live off of things like that. I do have a couple questions, Indian School and 371st. I specialize in Tonopah. You though, about -- less about property values, that sort have a house near your Arlington plant. It's Ardmore. of thing. I do have a couple of questions about your It's on Ardmore. It is about \$20,000 below market policies there at Hickman's. value right now. And it's been sitting on the market One is in regards to your employees. Do for six months. I have shown the house twice. The you discriminate against employees that have their own 11 11 responses were we could not live here for this smell. chickens, and if so, on what grounds. I have had probably 70 per cent of my MR. BILLY HICKMAN: We ask everyone that 13 Tonopah buyers, when they call me, if they know about comes to work for us, if they have chickens, to sit Hickman's egg farm, they specify we do not want to live there, and if they want to become an employee, then we ask them to either give away their chickens to someone anywhere near the egg farm. And if they don't know about Hickman's egg farm, and I show them properties 16 else, but move them away. 17 out there, they say no, we don't want to look at Because of the chance for either -anything else out here. We wouldn't want to live out either -- we vaccinate for, you know, bronchitis or here with the smell. some of the respiratory diseases. We don't want you 20 And I do know that it impacts land taking something to your -- to their house, and we 21 values. When the appraisers do their appraisals out don't want something that comes back from their house here, with it being a rural area, they have to go as back into our facilities. So there's while -far as a 10-mile radius at times to find a comparable. 23 there's --24 So the homes around a 10-mile radius will be affected AUDIENCE SPEAKER: So it will go right by anything like that. back to our citizens. I mean, if you're worried about Page 79 your chickens being infected by something, how about us When that home over there sells for, oh, I don't know, it may sell for \$30,000 below market getting infected -value before it ever sells. That is going to hurt our MR. WIRTH: The question is over here. values as well. Okay. You had your opportunity. Now it's somebody else. AUDIENCE SPEAKER: That's a fact, Jack. AUDIENCE SPEAKER: That's right. MR. BILLY HICKMAN: For that reason -- he MS. KERR: You also are encouraged to go states it's discrimination. It's prior to employment and look at our actual Maricopa County's website, the that we ask you to get. At the same time we offer assessor's website. I would encourage you all to look, everyone there that works for Hickman's egg ranch, they look at some of the properties that are on Siesta can buy 15 dozen eggs each and every week for \$6. Most Way -- is it Siesta Way, is that the one that goes of them buy extra eggs and give them out to their across? It's Siesta, I believe it is. friends and family. It's become quite the thing. So The same thing, house to house to house, that people don't have to own chickens for what they 14 the value is different, and it's going to be different. feel is a better -- better value. And there's not a direct correlation. You cannot say AUDIENCE SPEAKER: Yes, sir. I because of a farm that has come in or because -understand that --AUDIENCE SPEAKER: We didn't buy in 2005 MR. GLENN HICKMAN: Furthermore, let me 18 because of the stench. That's why we moved over here. just say, there was a salmonella reduction law, federal 19 So -salmonella reduction law that now requires us to screen 20 AUDIENCE SPEAKER: That's when I went employees for chickens at home. That's a federal law holy shit and we walked away. We bought out here. We 21 that we have to do now. That was passed almost two 22 22 bought out here to get away from that. years ago.

602-485-1488

AUDIENCE SPEAKER: Okay. You're saying

that screening. So you have to basically decontaminate

the employees before they go in; is that correct?

23

AUDIENCE SPEAKER: That's a correlation.

MS. KERR: Where is Mike's guy? Where

question.

Page 84 Page 82 MR. GLENN HICKMAN: Well, I'll just say AUDIENCE SPEAKER: Your response to a what we do. Every employee that shows up for work, woman who said that the -- that was bad about -- your that works in the barns, is given a uniform to change response was you have made mistakes in Arlington. And into every day free of charge. So they come in clean you've been there since -- I'm wondering why you think and they leave clean. we should believe you if you can't make the corrections AUDIENCE SPEAKER: So then how can it be in 20 years in Arlington? My question is, why should we believe that this will be any different? spread if they're coming in and going out clean? MR. GLENN HICKMAN: That's not an MR. BILLY HICKMAN: I think what I said, absolute barrier. So we do the best that we can. So, ma'am, was that as we have grown, and we didn't no, we can't -- in our pullet houses, we actually do recognize -- we did recognize the waste stream ask everyone that goes in there to shower in before management program that we used in 1998, and now we they go to work. Because the baby chickens are just have recognized. And that's why we're making changes like kids. They don't have all of their immunities in Arlington also. yet. AUDIENCE SPEAKER: How long do you 15 15 AUDIENCE SPEAKER: Okay. Thank you. anticipate it will take, because I have property three 16 AUDIENCE SPEAKER: Hi there. I'm one of miles from the Arlington plant. your new neighbors, by the way. I drive a lot. I work 17 MR. BILLY HICKMAN: I think what I said downtown. I have driven 300,000 miles to work so far. earlier, that within nine months I think we will see a It occurred to me that the 411 is the new center line change, as we sit there and change our waste stream for the north Phoenix bypass. So everyone on 411 is 20 management program. 21 gone anyway in the future, right? You guys are AUDIENCE SPEAKER: My question is, when connected. You know. Please help me. you clear out a barn after 90 or 100 months and 23 MR. BILLY HICKMAN: I'm not familiar with there's, I don't know how many they hold, maybe 100,000 24 that. chickens are destroyed, what do you plan to do with 25 AUDIENCE SPEAKER: There is a road. And them? I understand you put them through a grinder and Page 83 Page 85 there is five of them that is going to chop this valley put them in slush ponds. apart. In case you guys don't read this, read your MR. BILLY HICKMAN: Well -map. And you're at the intersection, a very good AUDIENCE SPEAKER: Well -choice. Everything east of 411, it will be gone. MR. BILLY HICKMAN: Well, we've already answered that. And the same -- same thing. We -- when MR. GLENN HICKMAN: All I know is that we are 30 miles left of the outer loop interchange. we depopulate a house, as the lady mentioned earlier, AUDIENCE SPEAKER: Why didn't you tell me we use C02 and euthanize them. And then we do put them through a grinder. you're going to build there next to my house? MR. GLENN HICKMAN: I'm sorry, I didn't But then as someone here was answering, hear that. there is no sludge pond. It's composted with the green 11 11 AUDIENCE SPEAKER: I'm 400 feet away from waste from different municipalities and golf courses. your proposed facility. I didn't know anything until We compost it. And then the majority of all that 13 you guys put up a sign the other day. product heads down to Wilcox for the edible --14 14 MR. WIRTH: That he's 400 feet away from AUDIENCE SPEAKER: So it doesn't smell, your proposed -- his residence is there. And he wanted 15 all the ground-up meat and beef and everything? you to respond to that. MR. BILLY HICKMAN: I think that's what 17 AUDIENCE SPEAKER: We're sorry. we were talking about earlier. That one of our waste MR. GLENN HICKMAN: We -- I think we did stream management changes is going to be how we handle a really good job by being open and transparent. We 19 that product. That is happening, and that's what I was 20 closed on the property, and we put a sign up to trying to explain. announce to everybody two days afterwards. AUDIENCE SPEAKER: So you're going to 22 AUDIENCE SPEAKER: Why didn't you ask 22 change it before you try to build this place? 23 for --23 MR. BILLY HICKMAN: That's also what I 24 24 MR. WIRTH: Okay. Here goes. Here is a said earlier.

MR. WIRTH: This is a 15-minute notice.

21

Page 89

Page 86 We have 15 minutes to go. We're going to wind this up. And we're going through these questions. And I want to give Billy and Glenn here notice too. If they can make it 15 more, that will be great. So we're going to finish up in 15. At 8:00 we're going to quit. So they've answered a lot of questions. We've got to keep on going as fast as we can. AUDIENCE SPEAKER: I have a question. At the beginning of this meeting you said that you support the community, and I understand that. And right now, I mean, obviously permits have been made, and unfortunately, as much as we don't want it to happen, this is probably going to happen.

So my question that I pose to you is, now that you guys are going to be out here, I want examples of how you guys are going to help the community. The power plant donates money and gives stuff towards education for kids. So I would like to know some examples, literal examples of how you guys are going to help the community without, no offense, walking on eggshells. I want literal examples please.

MR. GLENN HICKMAN: Okay. As -- as a family business, if you kind of look at our promotion, our website, and those kind of things, we kind of try to promote what we do. We sell eggs and those kind of

Page 87

15

16

things. Okay. But I just want to -- as a company, we support hunger and food.

AUDIENCE SPEAKER: Okay. But that's not answering.

MR. GLENN HICKMAN: I'm sorry, can I finish answering your question. So last year alone we donated to over 100 different organizations. Okay. Also, the Phoenix Children's Hospital asked us to donate to the west side hospital that was built.

And without going into specifics, that wasn't part of the corporate mission of hunger. So our family wrote individual personal checks and paid for one of the rooms at the Phoenix Children's Hospital. You won't find that on the website. I don't talk about that.

AUDIENCE SPEAKER: We're talking about in the community. What are you going to do for us in the community?

MR. GLENN HICKMAN: Ma'am, those all went to the community.

AUDIENCE SPEAKER: No, I'm --AUDIENCE SPEAKER: We are talking about to the --

AUDIENCE SPEAKER: We're talking about Tonopah.

MS. KERR: In reference to that, he said the community. I'm a community member too. I don't live in Tonopah, but I was brought up in the West Valley. I was brought up out here in Buckeye. I'm not from Tonopah. I understand. But if your child is ill and your child needs medical services, they are going to benefit from Phoenix Children's Hospital most likely, or, at least, the West Valley Hospital.

So, yes, we do not have a hospital that's here in Tonopah that we can donate to and take care of that right now. So what I would encourage you to do -what I would encourage you to do is on my card that I passed out all over throughout here --

MR. WIRTH: Quiet, please. Okay.

MS. KERR: My e-mail is on there. What is it that you are specifically wanting or looking for. When we have a request that comes in, we look at that. And the requests are met. Generally --

19 AUDIENCE SPEAKER: What about our fire 20 department?

MS. KERR: Generally, and if we know exactly what a want is or what a need is, we can look at that and more than likely participate in it. But if we don't know what your need is specifically, or your want is specifically, we can't fulfill that without

knowing. AUDIENCE SPEAKER: We don't want you over here.

AUDIENCE SPEAKER: No offense. I understand what you're saying. I get that from a business perspective. I get that. But my whole thing is you have said earlier -- I'm sorry, I don't know your name -- but he said earlier that he supports our community. So I get that. And I understand he's giving to hospitals. Well, guess what? That's in town.

I'm talking about Tonopah. I was just curious, because obviously there is a lot of concerned people here. I was just curious as to how you guys are going to give back to us here. How are you going to give back to the community here?

I understand you guys donate to a whole bunch of other things. I get that. You don't have to reiterate that. My question is, how are you going to do that here? Are you going to give to the schools, the fire department? I'm curious how you guys are going to help us here. That is what I am asking.

MS. KERR: Nothing will be different in this community than it has been in any other community that we have been involved in when there is a need to

1/9/2014 Neighborhood Meeting Page 92 Page 90 be fulfilled. If there was a hospital built in it. Is there going to be a community if there is --Tonopah, we would absolutely participate in MR. BILLY HICKMAN: If there is going to fund-raising. be a ---AUDIENCE SPEAKER: All right. Okay. All AUDIENCE SPEAKER: Odor coming out of right. Now I've been here for 35 years. And each and there. every company that has come out here before you, before MR. BILLY HICKMAN: You know, when you -- because the nuclear plant, they subsidize a lot of have any kind of animal agriculture, you are going to things. And a lot of it has been taken away, it's a have an odor, okay. And I don't know if I can answer county issue. -- you want a yes, will there be an odor, or, no, there But what I'm asking, what I want to know will be no odor. And I'm going to say I don't know, because we've never installed this kind of enclosure is, obviously, you have already decided that this is building, this is happening. So what everybody else before in our history. All I can say is that there's a needs to know, if this isn't done yet, you have a state lot less chickens per square foot than there is representative. And you need to understand that you currently. 15 can change this. AUDIENCE SPEAKER: We don't have --16 16 You guys came out here, slid on in. And MR. BILLY HICKMAN: I got it. 17 everybody else -- and there's been a lot businesses AUDIENCE SPEAKER: The question is, the come out here. They were open to the community and how land owner that you bought this land from, did he they felt about -- how we felt about them coming into inform you that he was in trouble with the EPA two 20 our community. You guys didn't do it that way. years ago? Because we had a bad smell coming over this 21 AUDIENCE SPEAKER: They slithered in like area, including the park. He got himself in trouble 22 with the EPA. The same sort of thing sounds like we snakes, yes. 23 AUDIENCE SPEAKER: Now people -- now 23 may have again. Did he tell you about that? 24 people need to understand, this is it, we contact the MR. BILLY HICKMAN: No, I don't think 25 state representative. there --Page 91 Page 93 AUDIENCE SPEAKER: I am asking you, sir. AUDIENCE SPEAKER: Okay. Bottom line, you have done all your research for your safety. There MR. BILLY HICKMAN: You can't compare us are a lot off issues on this end. I understand this. to bringing in municipal sludge and putting it on There is the financial thing to be here, for your 360 acres of farm ground. I don't think you can compare it to that. transportation, all this stuff. And I know you're legal to be in Tonopah. We got no say about it. AUDIENCE SPEAKER: My other question is, That's all stuff you've got. is this deal all cut and dried, this is just lip service? But the bottom line is, there's a couple AUDIENCE SPEAKER: Yes, that's right. of businesses here. Mike has put hundreds of thousands 10 of dollars in here. And my concern, is your plant MR. GLENN HICKMAN: You know, I'm sorry going to stink? With all the things you're doing, are if you characterize this as lip service. It hasn't we going to have a stink problem, bottom line? And you been a lot of fun being up here. But I'm trying to know this. I know it isn't built yet, but you know in tell you that we're trying to do the right thing. your own minds, is it going to stink? Is Mike's We're going to try to minimize our impact. We're visitors never going to come back again? Is the members of the community. When we were asked, you Tonopah hot springs not going to come back? Is the know, have we donated yet, we haven't been asked yet. guys at the truck stop, at the Shell, are they going to So I think that we will be as responsible as we 18 come back, because of the stink? Bottom line, is it possibly can. That's all I can tell you. going to stink? Simple question. And you guys do know 19 AUDIENCE SPEAKER: I have a question for 20

you. So I don't understand how you say that you're not regulated to monitor your particulates, the ammonia issue, when the precedent was already set in 2003 for 23 the Ohio plant production from Buckeye. The EPA came in and monitored and fined them. And they had to put in scrubbers and such. So I don't know why if there is

the answer.

should try to answer --

AUDIENCE SPEAKER: Yes or no?

AUDIENCE SPEAKER: Yes or no?

MR. BILLY HICKMAN: Sir, I think that we

AUDIENCE SPEAKER: You have walked around

```
Page 96
                                                      Page 94
   a federal precedence that you need to monitor your
                                                                    there an odor there at those facilities.
   particulates and ammonia, why you say you don't have
                                                                            MR. GLENN HICKMAN: I don't think any
    to.
                                                                    business in Europe would consider themselves to be
            MR. GLENN HICKMAN: Ma'am, I don't know.
                                                                    under-regulated.
   Perhaps they weren't operating their farm correctly. I
                                                                            AUDIENCE SPEAKER: Can I ask a question.
   don't know what they were doing there.
                                                                    Did they smell? Could you smell fertilizer, chicken
            AUDIENCE SPEAKER: Hi. I'm Jane McGee
                                                                    manure?
   and I just -- anyway, I just wanted to tell you I
                                                                            MR. BILLY HICKMAN: Not like Arlington.
   admire all of you from Hickman's Farms for coming out
                                                                    There is a -- you guys all have livestock. I'm sure
   here tonight. It's like the Christians being thrown
                                                                    that you can smell your horses. I'm sure you can
   into the den of lions. The fact of the matter, I have
                                                                11
                                                                    smell --
                                                                12
   a simple question. Why would you want to be out here
                                                                            AUDIENCE SPEAKER: Horses don't smell.
                                                                13
   if it's obvious the community does not want it.
                                                                            MR. WIRTH: All right. Here we go.
                                                                    We've got two or three minutes left. Let's go.
            MR. BILLY HICKMAN: Ma'am --
15
            AUDIENCE SPEAKER: God bless you.
                                                                            AUDIENCE SPEAKER: My question has to do
16
            AUDIENCE SPEAKER: We were here first.
                                                                16
                                                                    with the traffic. Are you planning at all to either
17
            MR. BILLY HICKMAN: Ma'am, there are some
                                                                    build or have built -- a road built down 419th to
   people that have supported us. And --
                                                                    Salome Highway, or to have an interchange at I-10 put
            AUDIENCE SPEAKER: Who? Not here.
                                                                    in at 419th Avenue?
20
            MR. BILLY HICKMAN: Okay.
                                                                20
                                                                            MR. BILLY HICKMAN: No, we don't have any
                                                                21
21
            AUDIENCE SPEAKER: I have a question
                                                                    plans for that.
                                                                22
   about the odor. You were asked would there be an odor.
                                                                            AUDIENCE SPEAKER: You want to use these
   You say you have not built a facility like this. But
                                                                    roads that have no base under them, that are just chip
                                                                24
   you wouldn't build a facility like this if you hadn't
                                                                    and sealed over the desert?
                                                                25
   visited a facility similar to this. I asked Terry
                                                                            MR. BILLY HICKMAN: Ma'am, our Baseline
                                                      Page 95
                                                                                                                       Page 97
   Burton, whatever his last name is, where there was
                                                                    Road, you know, which is travelled quite heavily for
   another facility that's going to be like -- that's like
                                                                    the dairy, our industry, and all the farm industry,
    your facility. And he said it's not in this country.
                                                                    period, is the same kind of road. And it's the same
   Have you visited that -- those other facilities that
                                                                    road we've been travelling on since 1988 with the same
    use this new process, and do their facilities have
                                                                    chip seal.
    odor?
                                                                            AUDIENCE SPEAKER: There's still the
            MR. BILLY HICKMAN: No. That's -- but I
                                                                    traffic going back and forth, all the businesses and
   don't want to lie to you. You're asking me to sit
                                                                    people here. And you're not going to make any effort
   there and put it out there and say. We were in a
                                                                    to go more directly out instead of going through the
   facility in Italy that was right in the middle of a
                                                                    center of Tonopah?
   neighborhood, right in the middle of a neighborhood.
                                                                            MR. BILLY HICKMAN: Well, we talked about
            So I don't know how to compare that in
                                                                    that earlier. That the egg trucks would head directly
   Padua, Italy, to sit there and say, yes, it worked
                                                                    to I-10, you know, heading east or west. And then the
                                                                    feed and the -- the feed and the whatever manure trucks
   there, but it's not going to work here. I'm not going
15
   to promise.
                                                                    would head south on 411th.
            AUDIENCE SPEAKER: I'm not asking that,
                                                                            AUDIENCE SPEAKER: Are you going to
   but I just wanted to know your experience.
                                                                    improve the roads that -- traffic --
                                                                            MR. BILLY HICKMAN: She can't be denied.
            MR. BILLY HICKMAN: That's why we're
19
   putting this kind of system in, sir.
                                                                19
                                                                    She has a sign and everything.
                                                                20
20
            AUDIENCE SPEAKER: But, see, in many
                                                                            MR. WIRTH: I told her no singing.
                                                                21
                                                                            MR. BILLY HICKMAN: Okay. But no
   foreign countries, they don't have the same choices
   that we have in America. That's why we are a better
                                                                22
                                                                    singing.
   country. And so they get -- a lot of foreign countries
                                                                23
                                                                            AUDIENCE SPEAKER: Hormones and
   get facilities forced on them, whether they smell or
                                                                    antibiotics. How do those go into your chickens? How
```

long do they last in the leach lines? How deep do they

not. And I'm just wondering when you visited it, was

Page 98 Page 100 sit in the porosity of the pools? And what kind of that we have experienced a little difference, we have tests do you have? What kind of hormones and how do now realized we have to sit there and change our waste you administer? Are they in the food, are they given management streams. shots? Do you grind them up and put them back in? We don't want flies. We get inspected by MR. BILLY HICKMAN: No hormones. all the food companies. We get inspected by the retail AUDIENCE SPEAKER: Antibiotics? chains. They need to have a safe food supply. And so MR. BILLY HICKMAN: Antibiotics we use if they're -- you know, we get inspected or audited. And there is a group of chickens; that is, just like you our compliance team is dealing with, you know, on-site have for your family. But if we use antibiotics, it's inspectors on almost a monthly basis. It's a concern to treat a respiratory. And as far as our eggs, they for us. And we make sure that we keep it in check and do get checked by the FDA. And we're an USFDA plant. 11 we try and succeed. So the FDA takes samples on a quarterly basis to a 12 AUDIENCE SPEAKER: What about -semiannual basis. 13 MR. BILLY HICKMAN: I'm sorry. AUDIENCE SPEAKER: How do we stop you? 14 AUDIENCE SPEAKER: The flies --15 15 MR. BILLY HICKMAN: I don't think you'll MR. BILLY HICKMAN: By singing. 16 MR. WIRTH: Then let's finish it up with have more. You will let me know. We'll visit and 17 the last two questions. you'll be able to tell me that. Okay. AUDIENCE SPEAKER: Okay. I'm not -- I'm AUDIENCE SPEAKER: I have three not going to ask a question, because I'm from a poultry 19 questions. town. I don't know these people. I'm from northwest 20 MR. BILLY HICKMAN: Mike, you didn't say 21 that. Arkansas. I've been out here over 20 years. Our town 22 didn't stink. We had all kinds of farmers laying eggs. AUDIENCE SPEAKER: Yes, three questions, 23 We had over a 10,000 population. We had the processing I've got three minutes. 24 plant. We did it all back in the '70s. MR. BILLY HICKMAN: You said Doris. 25 Ours do not stink until you come to AUDIENCE SPEAKER: Okay. Number one, you Page 99 Page 101 Arlington where they done -- they dealt with the say that you're coming in under agriculture. Is there fertilizer. Yes, people, that is going to stink. no difference between agriculture farming, which we Now, all you people that think that have now, and agriculture factory, which you want to chickens aren't ground up and put in your pet food, put in? Now, it doesn't seem like it's on the same level of agriculture. And did you not have to get think again. They can do that with those chickens. And with that I say thank you to Hickman's. industrial and commercial zoned, or did you not get it MR. BILLY HICKMAN: Thank you. three years ago down on your Arlington site? AUDIENCE SPEAKER: I have a concern about MR. BILLY HICKMAN: Glenn can answer that the flies and the mosquitoes. We don't have many about the industrial zoning. I can tell you, though, mosquitoes out here, and not a lot of flies. But I'm that -- what was the question you asked? 11 really concerned about that. AUDIENCE SPEAKER: First of all, it was 12 MR. BILLY HICKMAN: Just on a bird about the difference between agricultural farming -health -- on a bird health issue, we are concerned 13 MR. BILLY HICKMAN: No. I'm sorry. 14 about mosquitoes. We don't -- we don't have any AUDIENCE SPEAKER: -- and agricultural standing water. You know, we sit there and make 15 factory. sure -- because that's how things are transmitted, is MR. BILLY HICKMAN: No, it is the same through mosquito bites, for both people and chickens. designation. It would be the same as if a dairy bought 18 That's how they get pox and that kind of those 360 acres and put a dairy right there. It's 19 thing. So we have a pretty -- we have a pretty exactly the same. And that very well could be. It was in-depth management, pest control management. In fact, the same farmers that sold that ground and actually -we have a licensed pest control operator on our staff actually did buy a dairy with the proceeds from the 22 that is full-time. 22 sale. But that could just as easily be a dairy. 23 So as far as flies, one of the reasons 23 AUDIENCE SPEAKER: Did you not get 24 we're switching to a different management system is industrial and commercial zoning on your property?

MR. GLENN HICKMAN: No, Doris. When we

because, you know, this -- these rains that we've had

do you have --

Page 104 Page 102 -- when we bought the property, it was in an area that MR. GLENN HICKMAN: No, Doris. No, was planned to be industrial. Doris. You're not listening. I'm telling you it's our AUDIENCE SPEAKER: Right. intention to keep that in the green belt. If you want MR. GLENN HICKMAN: So through some quirk me to say in perpetuity, then I will say in perpetuity. at the county, they stripped that plan. Okay. We AUDIENCE SPEAKER: That would help. asked the county to put the plan back. So we were MR. GLENN HICKMAN: Okay. zoned agriculture, but it was planned to be industrial. AUDIENCE SPEAKER: And also we wondered AUDIENCE SPEAKER: The reason I'm asking about the roads. Right now you just have some farm that, I'm familiar with what your situation was. equipment and primarily vehicles going back and forth Because you used to be under a Tonopah Arlington land on Indian School Road primarily, although also the 11 use plan. And then Palo Verde and some of the others downtown 411 applies. came in with a new plan, which was called the Old U.S. But is there going to be any exchange on Highway 80 Plan. 13 that as a two-lane road down there? And if you're And at that time they moved some going to be bringing all those semis in and out of 15 there to go to the California market, what's going to boundaries and made some changes on that that were -you were listed as agriculture primarily under our be the case with our roads over there? 17 plan. They put you in, I think, as a rural MR. GLENN HICKMAN: Doris, I almost feel residential. like you're asking me a double-edged question. If I And my understanding was that you had to say we're not going to try to do anything to improve go back down to the county. And it cost you quite a the roads, that's not going to satisfy you. If I say bit of money and time to be able to get commercial we're going to ask the county to improve the roads, industrial zoning along with your agriculture at that that's not going to satisfy you. So I don't know if we time. Is that not true? can answer that question. 24 MR. GLENN HICKMAN: No, Doris. The AUDIENCE SPEAKER: But you have --25 county zoning that was there was R43, which is probably AUDIENCE SPEAKER: The road is already Page 103 Page 105 everything -backed up. If you're going to have semis and --AUDIENCE SPEAKER: Which is rural MR. GLENN HICKMAN: Okay. Now, if you residential. listened to Billy earlier, what he said is exactly MR. GLENN HICKMAN: Which was a holding true. All of our trucks on our current Arlington pattern. It's a holding zoning, as I understand it, facility; the feed, grain, fertilizer, eggs; all go on that allows agriculture and densities, I think, is one 331st Avenue. It's never been resurfaced or repaved home per 40 acres. since we've been there. And we've been there now for almost 15 years. AUDIENCE SPEAKER: No. It's one AUDIENCE SPEAKER: But we have more -residence per acre, which is 43,560 square feet. Well, I wondered if you didn't. Because I heard that you had 10 THE REPORTER: I cannot hear. 11 11 to have an industrial and commercial zoning down there. AUDIENCE SPEAKER -- besides you. Also, what is your -- what is your MR. GLENN HICKMAN: No. I disagree with intention for the future? If you come out here and you. On Indian School Road it kind of dead-ends, it's start this, as you did down at Arlington, and then you a little farther west, right? On 331st Avenue it's bought and built, and bought and built, and bought and almost a raceway at shift change at Palo Verde. built, what is your future thoughts of this if you come AUDIENCE SPEAKER: Well, the road doesn't in on that property? Are you intending to expand on to really end there. The road kind of runs out and it 18 18 goes to -the other east piece and future land? 19 MR. GLENN HICKMAN: No, Doris. I think MR. WIRTH: Okay. All right. My 20 if you look at -- if you look at the layout here, what agreement with the Hickmans was raise the clock for we intend to do is to keep half of the land in a 8:00. It's five after 8:00. I want to thank all of greenbelt on the east side. We intend to have Chad and them for coming out, and their company. And I think we J.L. continue to farm it. That's our intention. 23 owe them some thanks for that. 24 AUDIENCE SPEAKER: That's for now. But If you want to -- if you want to get more

information, obviously, Billy has his phone number and

Δ/.	7, Zoli Neighbolho	ou needing 20
	Page 106	
1	his e-mail on the sign over there. But they can	
2	they can say how you can communicate with them if you	
3	have additional questions that we're not answering	
4	tonight. But I appreciate everybody coming and we need	
5	to kind of wrap it up.	
6	AUDIENCE SPEAKER: One last question to	
7	wrap it all up. The whole night, one question. So	
8	when you guys decided to buy this land, you didn't take	
9	in consideration, oh, what it's going to do to the	
10	area? What it's going to do the economy? What's it's	
11	going to do to the roads? Now that it's being brought	
12	up	
13	MR. WIRTH: They have attempted to answer	
14	to the best of their ability today. So we are going to	
15	call it quits right here.	
16	Thank you everybody for coming. And	
17	thank you to the Hickmans. Thank you.	
18	(8:04 p.m.)
